

International School of Tallinn

Dress Code Policy

Dress Code Policy is applied from Grade 1 to 12 students at the International School of Tallinn.

For preschool students the Dress Code is not required.

All staff members are allowed to check if students are following Dress Code Policy properly.

The parents and students are expected to familiarize themselves with the Dress Code Policy.

For not following fully the Dress Code Policy, the following measures are implemented:

- **First step** – to remind a student orally the obligation to follow the dress code.
- **Second step** – a homeroom teacher sending a written message via ManageBac to parents.
- **Third step** – if a parent has not solved the issue together with the homeroom teacher, the next step will be informing the management team.
- **Fourth step** – the student together with the parents will meet IB Coordinator and the Director.
- **Fifth step** – formal consequences based on the decision of the Management team.
