

Group 2

Spanish: Language Acquisition

Course Description

Spanish AB initio is a language acquisition course designed for students with no prior experience or for students with very limited previous exposure in Spanish. In the language AB initio course, students develop the ability to communicate through the study of language, and texts. Students must also explore authentic texts that help develop an understanding of the cultures of the Spanish language.

5 important skills you will need to develop in this class:

1. Reacting and responding to authentic Spanish written and oral texts on topics of interest.
2. Applying an understanding of the Spanish language and related cultures to new situations.
3. Structure ideas to communicate personal opinions both orally and in written
4. Engaging in conversations to share personal ideas and opinions.
5. Interpreting and analysing different texts to develop an argument and a personal response.
